

The Ballroom is taking these precautions to make sure EVERYONE remains well and safe during their time with us.

To ensure the studio is safe for everyone, we have adjusted our weekday hours so that we can thoroughly sanitize the studio. Please, check our schedule for open times during this period.

We have modified our class schedules so be sure to check the classes we offer for the time being on our website. No weekend dances are being held at this time.

To comply with local requirements, anyone entering must wear a face covering. We have masks and gloves if you need them. Please, practice social distancing when inside The Ballroom.

Please, use hand sanitizer or wash your hands upon arriving.

Your temperature may be taken by touch-less thermometer and you will need to sign a waiver. If you aren't feeling well, coughing, fever, or shortness of breath, please, stay home!

We have installed Plexiglas partitions around select areas for you to talk to our staff and protect both of you.

We will be sanitizing as much as possible during our open times, so please, be patient with us as we take measures to protect everyone.

Please, use your facilities at home, prior to coming to the Ballroom, if possible.

We have touch-less soap dispensers in the rest rooms along with touch-less rest room doors. Please, use paper towels when you need to touch something inside and then dispose of it after use.

To control the flow of traffic and minimize interaction, please enter through the main double-doors and exit through the single door through the windows. Enter through the double main doors. You will exit through the door in the windows.

The doors will open at 6:15 p.m. There will be a break at 7:15 p.m. and 8:15 p.m. to sanitize.

If you need to leave the studio, please, use the glass door in the window area. You will need to sanitize your hands when reentering.

Bring your own drinks and snacks. We do have bottled waters, sodas and prepackaged snacks available. Put them under your chair while taking class. We can no longer give out ice.

We will have the floor marked following recommended social distancing protocols. Proceed to your space and be sure to social distance. Do not approach the instructor. Feel free to wave, nod, virtual hug, etc. Please, respect the recommended protocols so that we may continue to keep our classes open.

There will be no rotation of partners in class. If you arrive with a partner, you will remain with that partner for the class. If you arrive without a partner, you will remain without a partner during class.

Use a handkerchief/face cloth if you over-perspire. Please, do not wipe/flip your perspiration.

You will need to leave the studio as soon as classes are over. Be sure to maintain social distancing. Be sure to take all your belongings with you, as everything left behind will need to be disposed of each night.

We have missed you and want to keep everyone well and safe while here. Remember, The Ballroom is not the chairs, the food, or the masks. . . it's you, our dancers!

*By entering The Ballroom, you are attesting you have completed your daily self-health check and are symptom free.
